1 Browser Requirement

BOCOM International Online Securities Trading System only supports Internet Explorer 7 or later. Before login to the system, please make sure that the version of Internet Explorer meet the requirement.

O	nen	browser	Internet	Explorer
	pen	0100361	memer	Lypiolei

Choose "Help", and then choose "About Internet Explorer"

The following window will pop up and show the version of Internet Explorer.

If your current browser is Internet Explorer 6 or below, please visit

http://www.microsoft.com/windows/ie/default.mspx to download and install a newer version of

Microsoft Internet Explorer

2 System Login

Please go to BOCOM International's website http://www.bocomgroup.com/ and choose

"Online Trading (Securities) Login"

Please enter "Client Code" and "Password"

For first login, password must be changed before entering the system

]
Confirm	Reset
	Confirm

*Password should be at least 8 and not more than 16 characters, in both alphabets and numbers

3 Market Quotes

User can get the market quote of Hong Kong stock market in the top right side of the page

	Cancel Continue

Choose the "Order Type"

Order Type	ELO 🔽
Order Type	Limit ra
Trade password	ELO
	ALO AO

Order Types

Limit Order(LO)

Limit Order(LO) means a buy order or a sell order with a specified price input into the System for automatic order matching at exactly the specified price when the current ask price or current bid price matches the specified price.

Special Limit Order(SLO)

Special Limit Order(SLO) has no restriction on the limit price with respect to the best price on the other side of the market. Any unfilled quantity after matching will be cancelled and not stored in the System.

Enhanced Limit Order(ELO)

Enhanced Limit Order(ELO) is similar to the Price Limit Order except that it allows matching of up to 10 price queues. The sell order price of ELO can be matched up to 9 spreads lower than the current bid or the buy order price can be matched up to 9 spreads higher than the current ask price. Any unfilled quantity of ELO after matching will remain in the market as a Price Limit Order at the input order price.

At-auction Limit Order(ALO)

An at-auction limit order(ALO) is an order with a specified price. Any outstanding at-auction limit orders at the end of the Pre-opening Session will be carried forward to the Continuous Trading Session and treated as limit orders provided that the specified price of that at-auction limit order does not deviate 9 times or more from the nominal price. Such orders will be put in the price queue of the input price.

At-auction Order(AO)

An at-auction order(AO) is an order with no specified price and is entered at the Pre-opening Session. Any outstanding at-auction orders after the end of the Pre-opening Session will be cancelled before the commencement of the Continuous Trading Session.

If the user places order after Continuous Trading Session, please enable this field to mark it as the next trade day order. Otherwise, the order will be failed.
