

2-Factor Authentication (2FA) for Global Securities Online Trading

To enhance the protection of client's internet trading accounts with the Company ("Account"), we are pleased to announce that 2FA for login is required for all versions of trading platforms including the download, website and mobile version. With 2FA in full swing, you will be required to input a **One-Time Password ("OTP")** in addition to your usual client login name / code and password to complete the login process.

When you first login, the One Time Password (OTP) can be retrieved by downloading the "BOCOM International Token".

If you have already registered, you will also receive an email registration guide for BOCOM International Token registration
