What is this product?

- BOCOM International Dragon Core Growth Fund (the “Sub-Fund”) is a sub-fund of BOCOM International Fund (the “Fund”) which is a Hong Kong domiciled umbrella structure unit trust established by a trust deed dated 27 October 2010. It is governed by the laws of Hong Kong.

Objective and Investment Strategy

Objective

The Sub-Fund seeks to deliver long-term capital growth through investing principally in equities of companies that are listed on the Hong Kong Stock Exchange, which have considerable interests in the Greater China region (inclusive of Mainland China, Hong Kong, Macau and Taiwan).

Strategy

The Sub-Fund invests at least 70% of its net asset value in H-shares, red-chips and other companies listed on the Hong Kong Stock Exchange which have considerable interests in the Greater China region (inclusive of Mainland China, Hong Kong, Macau and Taiwan).

The Sub-Fund does not intend to focus on a particular industry or sector, and may invest in securities issued by companies of any market size and in such proportions as the Manager deems appropriate.

The remaining assets of the Sub-Fund (less than 30% of its net asset value) may consist of cash, deposits, money market funds and investment grade¹ debt securities denominated in HK\$, RMB or US\$ when appropriate.

As ancillary investment in other equity and equity related securities of companies which have considerable interests in the Greater China region, the Sub-Fund may also invest not more than 20% of its net asset value in A-Shares via the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect, and not more than 10% of its net asset value in equity securities listed in the United States.

The Sub-Fund will not invest more than 10% of its net asset value in debt securities issued and/or guaranteed by a single sovereign issuer (including its government, public or local authority) which is below investment grade.

Under exceptional circumstances (e.g. market crash or major crisis), the Sub-Fund may invest temporarily up to 100% in liquid assets such as deposits, treasury bills, certificates of deposit, short-term commercial papers for cash flow management.

The Sub-Fund does not invest in B-Shares in the PRC or A-share market access products. Further, the Sub-Fund does not invest in structured products as part of its investment policy.

Use of Derivatives

The Sub-Fund will not use derivatives for any purposes.

What are the key risks?

Investment involves risks. Please refer to the Explanatory Memorandum for details including

¹ “Investment grade” means Baa3 or above by Moody’s or BBB- or above by Standard & Poor’s or equivalent ratings by other internationally recognised credit rating agencies.

the risk factors.

1. General investment risk

- The Sub-Fund is an investment fund. There is no guarantee of the repayment of principal.
- The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses.

2. Currency risk

- Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. Also, a class of Units may be designated in a currency other than the base currency of the Sub-Fund. The net asset value of the Sub-Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.

3. Equity market risk

- The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

4. China and emerging markets risks

- Due to the focus of the Sub-Fund's investment in the Greater China region, the Sub-Fund is subject to risks relating to investments in emerging markets generally as well as risks specific to the PRC market, which may entail higher liquidity, currency, volatility, political and economic uncertainties, settlement, custody and legal and taxation risks for the Sub-Fund.

5. Concentration risk

- The Sub-Fund's investments are concentrated in the Greater China region. The value of the Sub-Fund may be more volatile than that of a fund having a more diverse portfolio of investments. The value of the Sub-Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the Greater China market.

6. Risk associated with small-capitalisation / mid-capitalisation companies

- The stock of small-capitalisation / mid-capitalisation companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.

7. Debt securities risks

• Credit / Counterparty risk

The Sub-Fund may invest in debt securities which may expose the Sub-Fund to credit default risks of the issuers of the debt securities.

• Interest rate risk

Investment in the Sub-Fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.

- Downgrading risk

The credit rating of a debt instrument or its issuer may subsequently be downgraded. In the event of such downgrading, the value of the Sub-Fund may be adversely affected. The Manager may or may not be able to dispose of the debt instruments that are being downgraded

- Risk associated with debt securities rated below investment grade or unrated

The debt securities held by the Sub-Fund may be unrated or may be below investment grade, which may result in lower liquidity, higher volatility and greater risk of loss of principal and interest than high-rated debt securities.

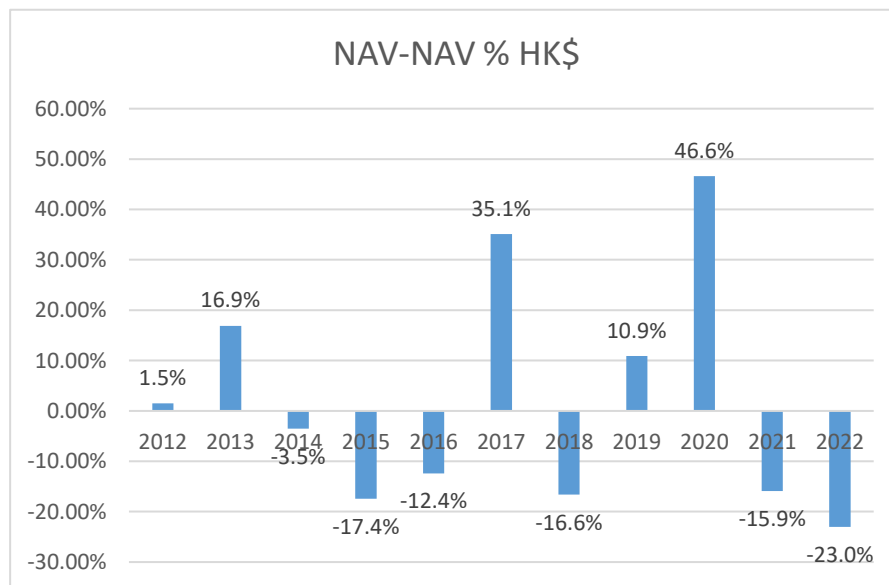

- Valuation risk

Valuation of the Sub-Fund’s investments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the Sub-Fund.

- Credit rating risk

Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.
